

THE MARVELOUS MSMONSTER

MsMonster may be hundreds of millions of subscribers short of her inspiration, but that doesn't stop her from making her next video better than the last with eye-catching thumbnails. She's known to frantically check every second to see how many likes she gets. Let's salute these trailblazing Tubers of You 🙌

- ① You can turn on "closed captioning" for each YouTube clip
- ① Note the date MsMonster uploaded her clips.
She can't predict the future (and neither can we!)

Clips will be embedded on the site above each fake bar as shown below. To see how they will render (and to solve the puzzle), go here: <https://sites.google.com/view/msmonster-clips/>
