

# Help Me, ChatOMG!

Your buddy developed a new AI, but it could use a bit more training. Maybe it can help you write a puzzle hunt! Be warned — its vocabulary is limited, so make sure you're getting the most out of each available term.

OMG

You got it! Check out this one-off story I wrote:

One day, a predator at the peak of his career decided to join a tournament, donning his signature blue boxing gloves. He was a gentle giant from a place before clocks, known for the the wheel part pattern along his back. To prepare, he emulated a hungry hungry animal at his grand library in Waterfall City. He chomped on a huge piece of pie, feeling quite maternal, despite being lost in this place. He practiced putting a curse on his friends, including a cowboy, a springy dog, and a piggy bank. Then he rocked out with his owners by drinking way more than he should have, turning his skin even more pink. He finished the day by stealing a princess with his kids to score a perfect 300.

All in all, a tee-rrrific day!

OMG Hm, that's strange. I believe I lack the intelligence to write you a metapuzzle. Maybe you could go ask that more popular AI for help?
